Asia-ARVO

Asia-ARVO is the premier eye research meeting in Asia, held every two years in different countries and locations. Asia-ARVO seeks to showcase and highlight major clinical, basic and translational aspects of all vision and ophthalmic research, with a particular focus on Asian diseases and conditions. Previously known as SERI-ARVO for meetings held in 2003 and 2005, the name was changed in 2005 to reflect ARVO's commitment to partnering with the many countries in Asia that have expanding eye research programs.

Meeting Highlights

- Age-Related Macular Degeneration In Asians
- Cataract/Lens Development, Etiology And Pathogenesis
- Corneal Physiology, Corneal Pathology And New Therapeutics
- Diabetic Retinopathy: The New Epidemic In The Asia Pacific
- Epidemiology Of Asian Eye Diseases
- Genetics: From Molecules To Populations
- Immunology, Inflammation & Microbiology
- New Insights Into Glaucoma Etiology, Risk Factors, Diagnosis And Treatment
- New Ocular Imaging Technologies: Clinical And Research Applications
